

**Brief Note  
Of  
DRR, CCA, and ER in ToT Commune/Sangkat Social Development – Mother  
Health, Hygiene, Community Kindergarten, Gender Equity and Child  
Protection, at Provincial Local Administration Units, Steung Treng Province, 04  
November 2010**

JOIHP received the information of ToT for commune/Sangkat social development-mother health, hygiene, community kindergarten, gender equity and child protection from PSDD in Steung Treng (via Mr. Nuon Kimleng) which was to conduct for 3 days (2<sup>nd</sup> – 4<sup>th</sup> November 2010). The training designed with 8 topics (1. Mother health, 2. Hygiene, 3. Community kindergarten, 4. Gender equity, 5. Child protection, 6. Commune/Sangkat's activities in social development, 7. Roles and responsibilities of stakeholders at commune/Sangkat level, 8. Roles and responsibilities of stakeholders at Capital city/Provincial/city level). The participants are the focal persons from PLAU, Provincial Office, and Provincial Departments, 26 participants in total (6 females).

In order to integrate the concept of ER, DRR and CCA in development programme of the government, Humanitarian Advocacy Officer had contacted to PSDD and PLAU (via Mr. Porch Sovann-LAA) for a possible session to add topic of DRR and CCA in Development Programme in the ToT.

With good support and much interest of NCDD and PLAU on the topic, a half-day on the 3<sup>rd</sup> day of the training had been provided to Oxfam presenting the concept of DRR and CCA in Development Programme and it is numbered as the 9<sup>th</sup> topic of the ToT.

Capacity Building Officer was the representative of JOIHP to present the concept of DRR and CCA in Development Programme at the ToT. The presentation designed for 2 hours and 30 minutes covered the following areas:

- What is “ Hazard”?
- What is “ Vulnerability”?
- What is “ Disaster”?
- What is “ Capacity”?
- What is “ Disaster Risk”?
- What causes Climate Change?
- What is green house gas?
- Potential climate change impacts
- Interaction of climate change and development programme
- What is CCA and CCM?
- Impacts of disaster to country development
- What is CCA and DRR?
- How to integrate CCA and DRR in development programme?
- Hazard mapping, seasonal calendar, and gender analysis-problem and solution.
- How DRR/CCA links to CIP/CDP process?

*(Please referred to the presentation attached)*

The above areas had been supported by EFSL specialist and HAO that shared the ideas on what to be introduced to the training.

To achieve the areas to be presented, the session was set the clear expectations and methodologies as the following:

Expectations of the presentation are participants know the concept of DRR and CCA, feel confident telling others what DRR/CCA is and why DRR and CCA important in development programme, and how to integrate those.

Methodology used are slide presentation; handout; flip chart for drawing the impact of disaster to country development; quiz for group competition on the terms of hazard, vulnerability, disaster, and capacity; Q&A, and participants' name remembrance.

But the available time for the session at the training was only 1 hour and 30 minutes; Capacity Building Office was able to deliver the session successfully without change any areas and methodologies. The expectation of the session also achieved based on the comparison of the participants' expectation and evaluation to the training.

Participants' expectation	Participants' evaluation
<ul style="list-style-type: none"> <li>- know about CCA and the terms of DRR</li> <li>- know the concept of DRR and CCA and able to extend the knowledge to commune/Sangkat and others</li> <li>- know about DRR and CCA and how to integrate</li> <li>- know how to prevent disaster that may happen</li> <li>- know the cause of other disasters and CC</li> <li>- know how CC in Cambodia for the current time</li> <li>- know about CC and how to do CCA and DRR</li> <li>- know the term of global warming</li> <li>- know the advantages of natural, and disaster caused by over used of resource</li> </ul>	<ul style="list-style-type: none"> <li>- know the concept of CC and disaster</li> <li>- know the concept of CCA and DRR</li> <li>- able to share when and how can integrate CCA / DRR in CIP/CDP</li> <li>- confident in telling what hazard, vulnerability, disaster</li> <li>- understand the hazard map and seasonal calendar focus on hazard/disaster and gender analysis.</li> <li>- much interest with the topic.</li> </ul>

After the training, the participants would be providing the training to commune council at district level in Steung Treng. So they should have any request for assistance in terms of DRR/CCA topic, Oxfam would consider and provide technical and some available financial assistance.

The session was closed after having no any questions to discuss with group photo on that.

**TRAINING AT PLAU STG MEETING ROOM – 4 NOVEMBER 2010**
